

The Lads: Minutes of the meeting on the 30th March

In Attendance :

Ronan Constantine
Harvey Muyangayanga
Mthokozi Sibanda
Siddarth Singh

Apologies :

None

1. WELCOME

General greetings

2. CONFIRMATION OF MINUTES

Minutes of the meeting of the 12th are confirmed.

3. GOALS

- Task breakdown for the next milestone
- Pick a design and framework as a general one
- Define a minimum viable product as next deliverable

4. DECISION TAKEN AND UPDATES

- PCA graphing is taken by Ronan
- ADMIX is taken by Mtho
- GUI design is taken by Sid
- Harvey assumes an oversight role and brings help where needed. He is also in charge of formalizing the minutes of each meeting.
- The next milestone deliverables are hence: A plot of the PCA & ADMIX, a mock up UI that shows at least the option available and formally written minutes
- It was determined that none of our personal design and framework were flawless and as such the new design will contain a bit of all of them unless stated otherwise by the lecturer/client.
